

**BAKU
CONVENTION
CENTER**

Where
innovation meets
professionals

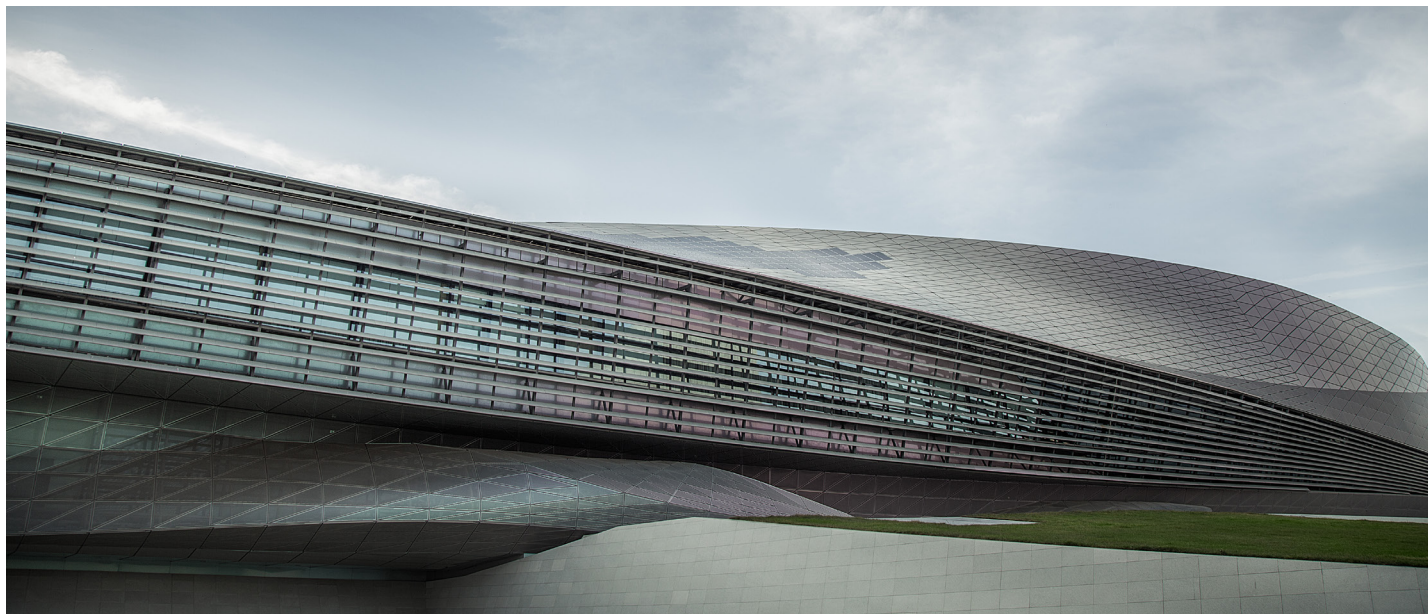

Baku Convention Center, the largest congress center in the Caucasus, is an ultramodern venue that can host events of the highest international level. With a large number of flexible conference rooms, as well as a unique large hall with a maximum capacity of up to 3,500 seats, the Congress Center offers excellent opportunities for holding congresses, conferences, seminars, business meetings, concerts and other activities.

The new hi-tech building is a project of the Austrian architects Coop Himmelb(l)au. As a rule, the buildings designed by Coop Himmelb(l)au are characterized by unusual experimental forms, imitating the most diverse forms of architectural destruction.

The design of the congress center has not only a symbolic meaning for the general urban concept of the capital, but also high ergonomics and highest technological effectiveness.

The venue of modern ideas

The building with an area of 46,000 sq. m. has all the necessary infrastructure. A distinctive feature of Baku Convention Center a large multi-pixel monitor installed in the foyer of the building. The congress center has 17 conference halls with a total capacity of up to 2500 people. Besides conference halls and an auditorium, there are rooms for meetings and workshop.

Infinite possibilities

- International symposia and congresses
- Forums and Conferences
- Seminars and lectures
- Trainings and team building events
- Expo
- Presentations
- Gala ceremonies
- Concerts and musicals
- Stage performance and film premieres
- Dance and sports festivals
- Fashion and motor shows

1 / Foyer

The foyer of the Baku Convention Center with an area of 1,560 sq. m. is adorned with flying decorative projectors. There is also a wardrobe, a lounge and other areas. The warm lighting of the foyer along with cold shades used in the interior decoration, gives the room amazing coziness and comfort.

At the main entrance of the Baku Convention Center guests are welcomed by one of the biggest indoor monitor in the world.

The staircase which leads to upper floor, with 4 escalators on the sides, is ideal for the red carpet and photocalls.

Registration and information desks equipped with all the necessary facilities and accessories for receiving guests, are located in the foyer. The screens above the registration desk allow to place logos and event schedules or play videos.

2 / Auditorium

One of the features of the congress hall that makes it outstanding compared to many other international conference centers is the exceptional size of its multi-functional auditorium with a total capacity of up to 3500 people.

The rolling floor and flexible seating systems allow using a number of auditorium configurations, such as theater, banquet, as well as a configuration of several scenarios simultaneously.

Due to the slide walls of the auditorium, it is possible to go from the foyer directly to the expo area, crossing the main hall.

Cutting-edge technologies like rolling floor system by Gala Systems, JBL sound system, folding double walls and curtains make this hall really universal in its use. Within a few minutes, seats are automatically converted into a single-level floor, clearing a space for an exhibition area or a banquet. The auditorium turns into a chamber space for a stage performance or a cinema hall. It can host all kinds of events, from official ones to purely entertaining.

- **Hall division options:**

The balcony can be divided by the soundproof folding wall

The auditorium can be divided by a large acoustic curtain

- **Capacity of the hall:**

Full occupancy: 3500 seats

Theater configuration with a curtain: 600 seats

Convertible: 2300 seats

Configuration with a single-level floor: up to 3000 people (standing)

Balcony: 1200 seats

For physically disabled people: 40 seats

Stage

There is also an option to install additional equipment in accordance with the requirements of the event. A large LED monitor can be set at various levels.

There are also black sound tableau curtains. Additionally, two small side stairs can be set to the stage. There are two backstage make up rooms. 6 tons freight elevator is designed to lift the scenery and equipment.

2 / Auditorium

Standard configuration

The auditorium is equipped with a large HD-screen, a projector, professional sound and lighting facilities. Seating rows in the auditorium have an effect on the perception of the stage act.

Balcony

The balcony with the capacity of 1200 seats is equipped with a large screen, a projector and a portable dismountable stage. It is perfect for conducting presentations and film premieres.

Gala evening / Award ceremony

The configuration of the hall facilitates holding solemn awards ceremony or gala receptions and official events with the concert program.

After converting the auditorium into a banquet configuration, the location can be furnished with a maximum of 120 round tables, 10–12 persons each.

In this case, the balcony is hidden behind a folding wall. To create a chamber-like interior flying decorative projectors are lowered.

3 / Conference halls

17 conference halls located along the spacious boulevards have everything needed to hold conferences and forums.

Conference halls are located around the auditorium in such a way, that provides fast and convenient way of moving between them, saving participants lots of time.

Majority of the conference rooms and the adjacent territory have daylight. Conference room configurations are optional.

If necessary, the rooms can be combined or divided by using sound proof double walls.

Most conference rooms and the circulation areas have direct sunlight from above and from the façade.

Technical equipment:

- Projectors and screens
- Translation booths
- Room control using laptop or iPad
- Different light scenarios
- Stage
- Microphones
- Headphones

4 /

International exhibitions, Trade shows and Business meetings

Baku Convention Center has a variety of expo zones, that are able to adjust to any format of an event. It has bright halls, balconies with direct access to offices and elevators, boulevards with panoramic windows and much more.

This building is perfect for holding an exhibition or a presentation, an open air event with tents or a lounge area - the options are almost limitless.

5 / All for your convenience

Networking area

The venue of 1750 sq. m is fully prepared to host an exhibition of any kind. There are two escalators and two elevators that bring delegates to the offices and coffee bar on the second floor. It also has a lounge with tables for those who want to work in a relaxed atmosphere.

The potential of portable conversion

The parquet configuration of the auditorium allows to use it for events like international trade fairs, car presentation and fashion shows. There is an option to fold the central sliding partition between the expo area and the auditorium, which gives visitors extra space and allows them to move around much easier. It also allows to open a wide arch that leads right into the auditorium.

Boulevards

Boulevards A and B that go through all of the second floor, are connected with the main expo zone and restaurants area; they also have direct access to the conference halls and auditorium, as well as additional side entrances to buildings C and D. Boulevards are accessible by going up the stairs or the elevators from the main entrance. The boulevards are covered with a glass roof that gives them natural daylight. Vertical and horizontal monitors along the boulevards can be used for posting the content of an event.

Outdoor area

The venue with an area of 4000 sq. m. can be used for presentations, exhibitions and festivals.

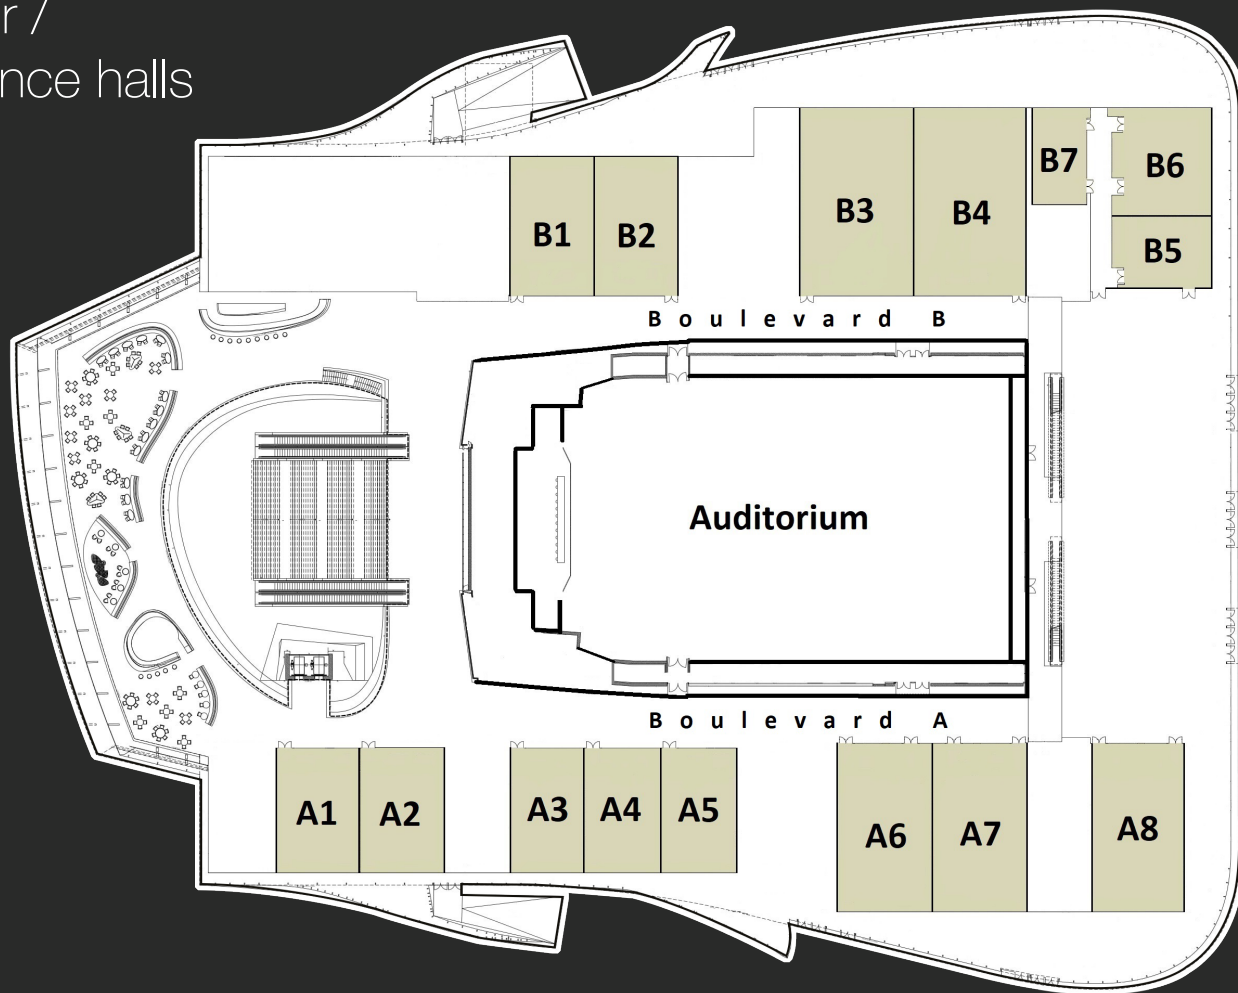

6 / Offices and Breakout rooms

On the 3rd floor on boulevard A there are 23 comfortable offices with elegant interiors, and on boulevard B there are 52 standard offices. Several rooms configurations provide everything you need, including office furniture, landline phones, internet and options for connecting to other devices.

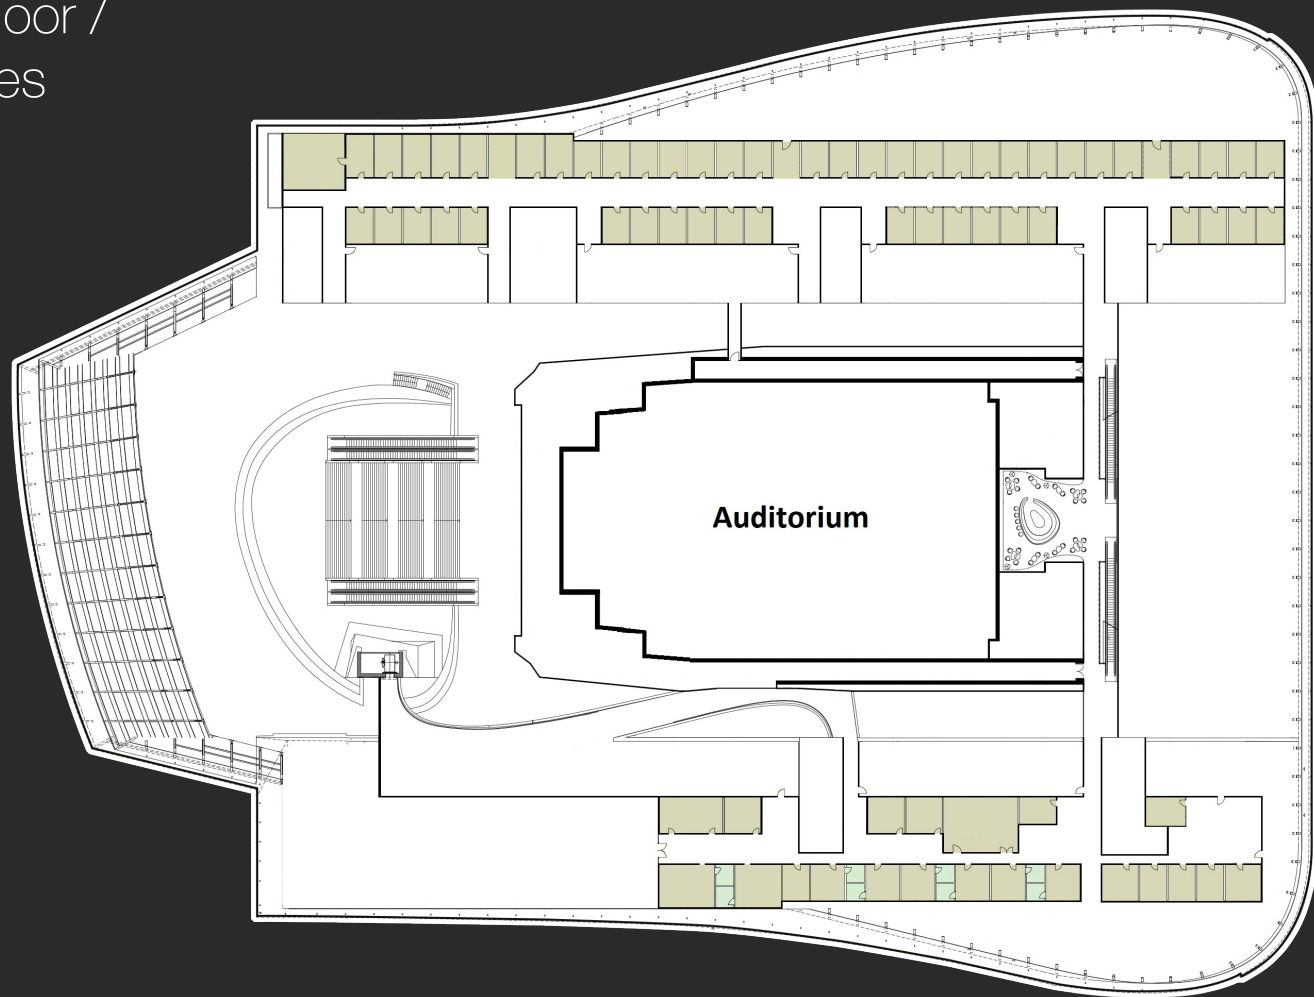

Both wings have meeting rooms as well as staff rooms. In building C there is a conference hall for 50 people, equipped with projector and sound speakers, 2 media rooms for livestreaming and one media rooms for interviews.
